5 days / 4 nights

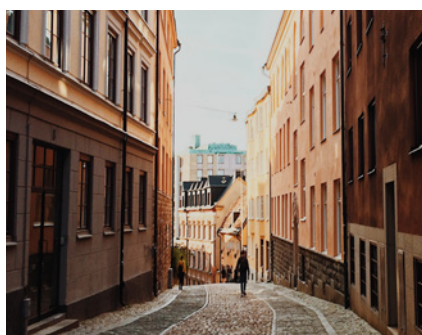

A tour with great opportunities of seeing
the Northern Lights!

Day 1, ARRIVAL STOCKHOLM

Arrive by flight on own. Transfer on own (not included) from the airport to your hotel. Stockholm, one of the most beautiful capitals in the world, is built on 14 islands, connected by 57 bridges. The beautiful buildings, the green parks, the fresh air and the proximity to the water are distinctive traits of this city. With 750 years of history and rich cultural life, Stockholm offers a wide selection of world class museums and attractions. During winter, we warmly recommend to go skiing on one of the city's slopes, glide around a classic ice-skating rink, or join a guided long-distance skating tour across Lake Mälaren (not included).

Day 3, OVERNIGHT TRAIN - KIRUNA

Breakfast on own (not included). In the morning around 09.30, arrival in Kiruna by train and transfer on own to the hotel to drop off your luggage. Kiruna, where the Sami, Swedish and Finnish cultures meet, is an exciting city to experience. Kiruna was built around 120 years ago, when the treasures of the earth were to be retrieved.

The iron ore body of the mountain Kiirunavaara stretches in under the town. That's why we now have to move the town when the world's largest underground iron-ore mine is expanding.

Today it is time for your regular Dogsledding Tour: Transfer from Kiruna to the wilderness Lodge: The dogs stand harnessed to the sled; they are eager, happy and waiting impatiently to start the journey. As if by an instinctive signal the dogs suddenly fall silent and set off at full speed. All is quiet except for the sound of the dogs panting and the crisp cut of the runners through the snow. The dogs are in their element, happiest when working. Guests travel on a large sled steered by our guide. A trip of between 2-3 hours, with a pause at a scenic spot for coffee/tea over the campfire and sandwich (included). A minimum of two bookings; single person may join an already booked group. Departure at 10:00 or 17:00.
